Is sittin on her deckin  
enjoyin tha summer sunshine in tha pool wiv me doggy  
(buster brown) will these summer days last 4eva ( I hope  
so)...well I better get started on me history homework  
before I forget to write it :D my awesome teacher Mrs  
Tiltman (of course) told us bout this man named Richard  
III who was king of England and all tha people HATED  
him and wanted to get a new king but he found out this

and KILLED his 2 nephews coz they were tha only 2 people who could take ova as  
king ( that's a little bit NASHSTY) butt wa he didn't now is tha he had a relative livin  
in France who was called Henry Tudor and he heard this and came ova to fight  
Richard coz he couldn't just take ova it had to be a fight where 1 would live and  
become KING and tha other DIE! Tha fight took place on Ambien Hill Bosworth but  
to get there Henry went all tha way to Wales and marched up to the North where his  
Granpa lives and gathered more men to fight and then marched them to  
Bosworth.....Guess who won Henry Tudor and his new name Henry Tudor VIII (   
VIII ← that is new) and tha person who killed him was WELSH (that's obvious coz  
they are awesome) and when he cut his head off he was holdin tha welsh dragon and  
that's when WALES had their own flag and that's how it's a dragon all them years  
ago like! But bein king was all that good coz Richard had left the country wiv no  
money so Henry had to start frm scratch coz lets face it Britain was SKINTED! But  
he had to sort problems out he had threats frm other countries so he had his eldest son  
to marry the king of Frances daughter Catherine! But he had 6 wives in total and only  
2 survived and his latest 1 was Elizabeth who he was wiv for 24 years then he died  
and had 7 kids wiv her. In total Henry was a good kind and left England very wealthy!  
Well that's done now off in tha pool again now to get more wet see yaaa  
facebookers!
